

Primer showing how to use the interactive map

The screenshot shows a web browser window displaying an interactive map of Durham, North Carolina. The browser's address bar shows the URL <http://map.mapnetwork.com/>. The page title is "The Map Network - Map I...". The map interface includes a search bar, a "Print" button, and a "Navigator MAP" window. The main map area shows a street grid with various landmarks and points of interest. Several callout boxes with red arrows point to specific features on the map and the interface.

The print button prints the current view.

The map interface consists of 3 related maps. Click here to change the visible map to view whole county or region.

Nearly 500 points of interest are plotted on the maps and organized by categories and sub-categories. Click the carets to expand/collapse categories.

Throughout the maps, Dining and Entertainment Districts are shaded and labeled.

Downtown Durham parking lots are indicated with a P.

Search for nearly 500 points of interest on the maps by typing a name or partial name and clicking go. Results appear directly below.

Use checkboxes to display or hide various categories of points on the map (nearly 500).

Sub-categories and individual listings of nearly 500 points can be expanded here. Clicking on a listing name will re-center the map and display the point. Clicking on the i-Info balloon will pull up a detailed info window for that point.

The maps include outlines of major civic buildings and facilities on university campuses.

The Nav button toggles the Navigator Map from visible to invisible, depending on user preference.

Use the zoom bar to zoom in and out. Click and drag anywhere on the map to re-center the map.

Organized neighborhoods are labeled to aid newcomers.

The Navigator Map displays the entire viewable area of the map. The red box inside shows the area currently visible on screen.

Major Durham-based RTP employers are marked as well as the Self-Driving Tour of RTP.
